VOLUME

Total scans & unique cards

Smart Check verification volumes across the period by total scans, and unique cards.

16.8m

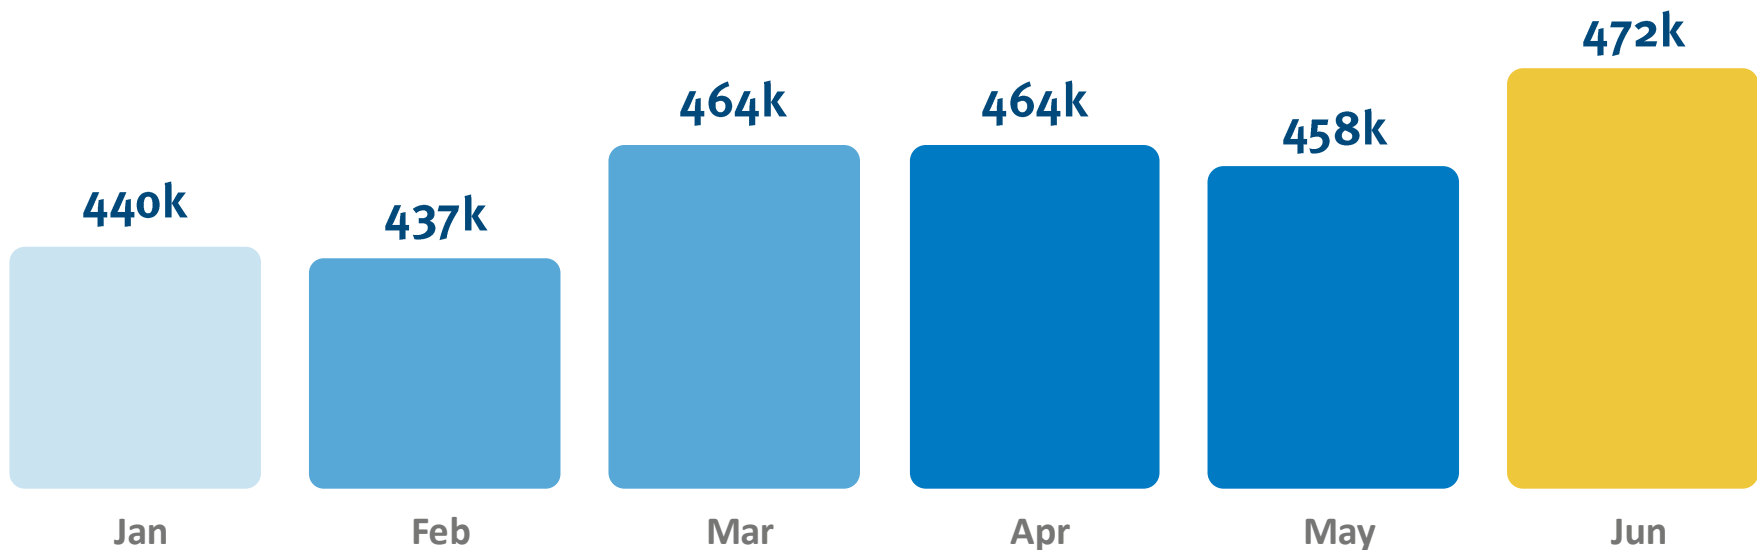

Total Smart Check scans

825k

Unique cards verified

Unique cards per month

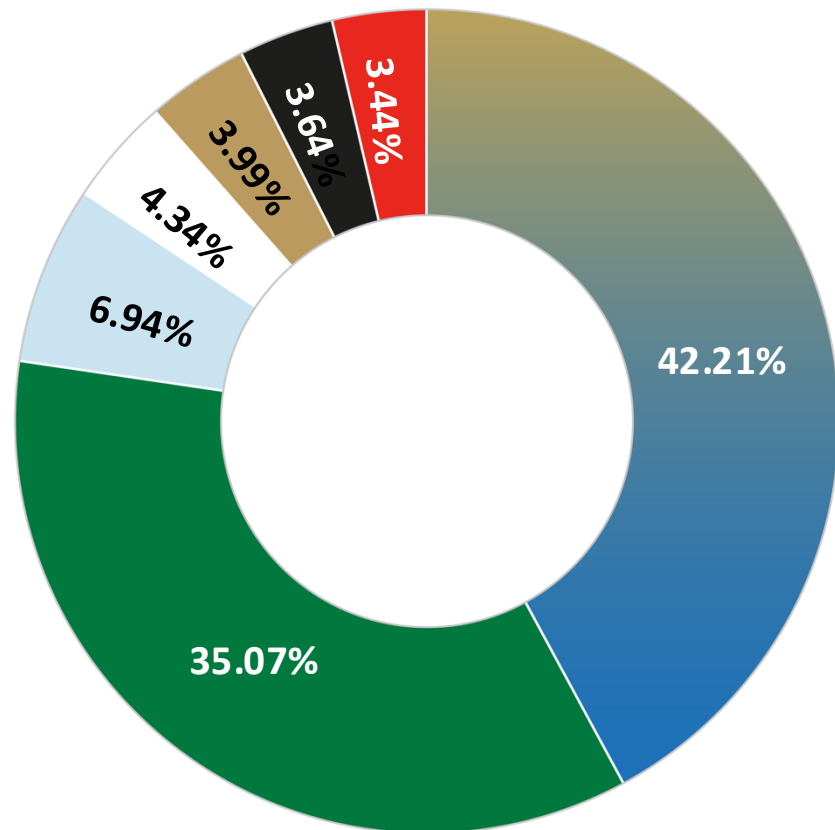

Placeholder trend

WORKFORCE

Skills mix by card type

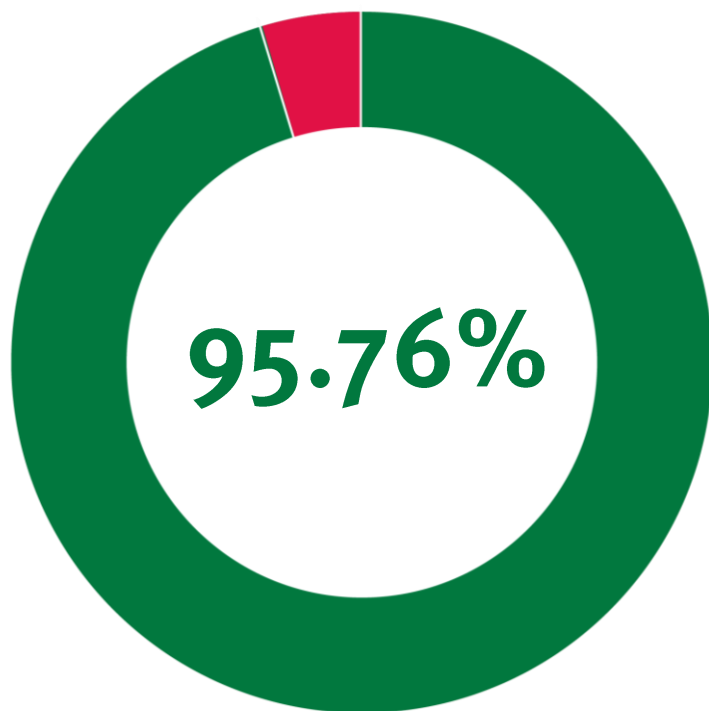

Share of scanned cards by skill level across the CSCS Alliance

Card type	%
Skilled and Advanced Skilled	42.21%
Unskilled	35.07%
Other	6.94%
Academically/Professionally Qualified	4.34%
Supervisor	3.99%
Manager	3.64%
In Training	3.44%

OUTCOMES

Successful vs unsuccessful

Successful **16.08m**

Unsuccessful **713,182**

92,825 Average scans per day

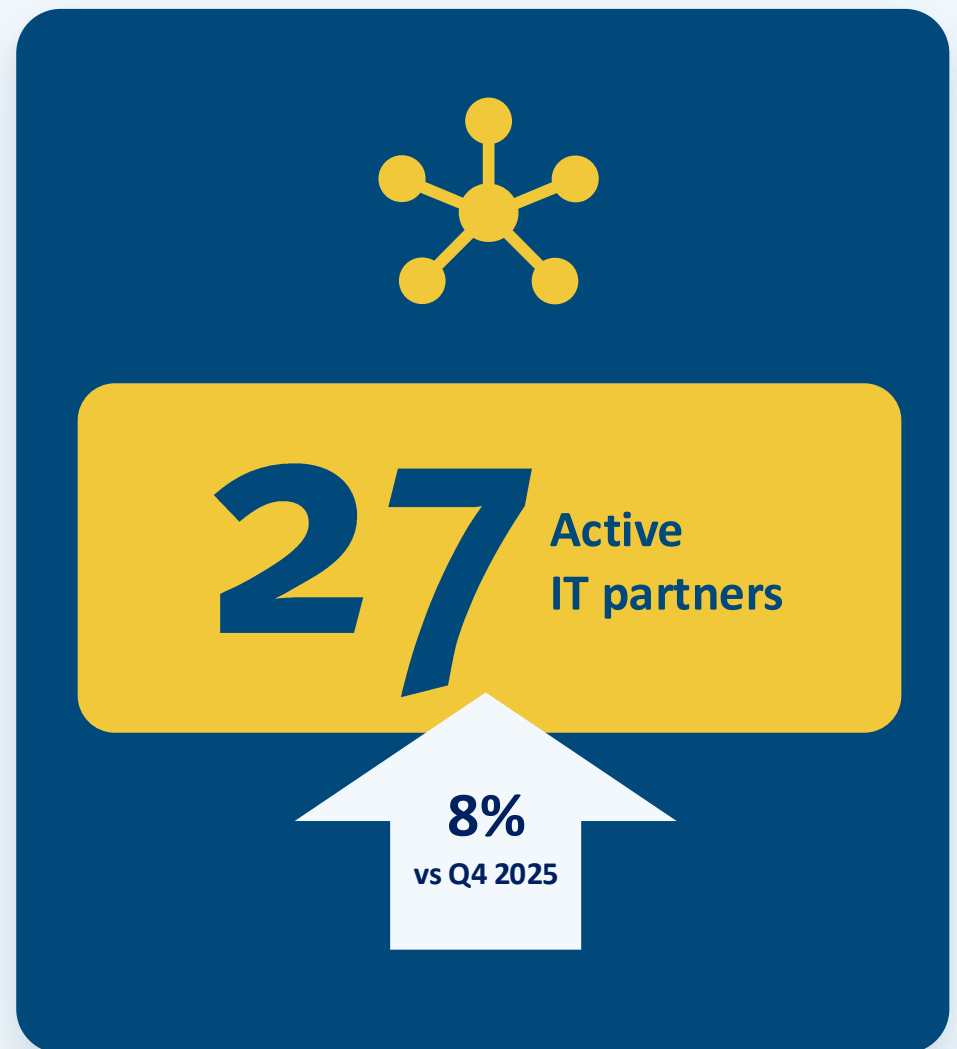

Unsuccessful scans typically reflect fraudulent, expired, revoked and invalid cards. Visual checks alone are insufficient to root out fake cards or those gained fraudulently.

ADOPTION

Active employers & IT partners

Employers and contractors verifying cards through Smart Check during induction and site access, and IT Partners providing the API within their products and services.
